

If this turns you on

**And you're looking for service work in the local fellowship,
You might just find the perfect solution at Intergroup 17.**

Help Wanted Immediately
Intergroup 17 Website Programmer
www.aocalamarion.org

We're looking for someone who can help create an interactive, online *When and Where* directory for Ocala-Marion County group meetings. Plus, there's plenty of other opportunities to work on our website functionality if you're interested.

When and Where. A vital link to the fellowship.

The *When & Where* is a great resource to newcomers, tourists, visitors, and old-timers alike. An interactive online version will make finding those all important meetings even easier. To see an example of what we're hoping you can build, visit this site: www.aastl.org

While you're at it, we'd also like to add an interactive map and "get directions" function. For an example of this, visit: www.beavercountyaa.com and click on "Meeting List."

Can you do the job? Will you?

If you have the experience and qualifications to create any or all of this type of functionality for the Intergroup 17 website—and are willing to volunteer your time to help us carry the message—please visit, call, or email us today.
